TOTAL IS \$16,800 OVER 1967

Township Board Approves Increased Budget

BELLEVILLE -- A General Fund Budget of \$221,206 for the 1968-69 fiscal year has been approved by Van Buren Township Board.

The adopted budget is up \$16,800 over last year's budget of \$204,427, Louis A. Toth, township supervisor, reported. The rise in budget totals is attributed to increased operation costs and pay boosts approved at the inception of budget reviews several weeks ago.

Anticipated income revenues for the 1968-69 year were reported at \$169,062, plus an increase in collections of the Township's one and four tenths mill levy, or some \$62,000 which is based on increase valuation of Van Buren Township, if assessments are not reduced.

This compares with income revenues of \$145,545 and tax levy collection of \$58,881 last year.

The four tenths mill levy is for Peoples Community Hospital Authority and the one mill for township operation, Toth said.

Van Buren's total property assessment for the 1967-68 year was \$42,032,470, state equalized. An increase during the new fiscal year is anticipated.

Van Buren Township's rise in valuation has increased its

PCHA mill levy for PCHA debt retirement and operation to an estimated \$16,812, Toth reported.

Budgets approved for various departments and divisions along with last year's allocations follow:

Administration - \$76,744, as against \$63,584; Fire Department - \$23,750, as against \$28,300 which included the final payment of the township's fire truck; Police Department -

\$6,600, as against \$9,500. Van Buren purchased a new police car last year accounting for the difference but the department's 1968-69 allocation is up.

Sanitation Division, \$15,770 compared to \$14,952. The increase is due to pay adjustments and rental increase. Road Division, including street lighting maintenance, \$4,200, against \$3,800 last year. Toth reported the rise in price increases in road maintenance materials.

Building Department, \$26,458, as against \$30,791 last year. The Building Department's budget was reduced by \$6,000 by the transfer of one of its employees to the Water Department, but pay boosts still bring the 1968-69 allocation above that of the previous year, he said.

The Township Board is to take up the Water Department budget, a separate review, soon. The Parks and Recreation

Department budget remains the same next year.

Last year the allocation for this department was \$9,000, including the purchase of a tractor. Next year will be the same and is to include the cost of fencing in the Township's New Board Launching Ramp. Other expenses and fixed charges were reported at \$39,083 as against \$28,300.

This year's income includes: Sales tax, \$90,000; intangibles, \$11,600; liquor licenses, \$3,500; telephone charges, \$150; transfer from recreation funds, \$9,000; dog licenses, \$4,000; registrations, \$2,500; permits, \$20,000; PCHA's levy of four tenths mill, \$16,813; special police, \$2,000; interest on investments, \$4,000; cemetery charges, \$1,000; trailer camp fees, \$1,500; and special meetings, \$2,000.

A FEELING OF SPRING--Daffodils, little girls and baby lambs provided a feeling of Spring last week at Henry Ford Museum and Greenfield Village. Linda Perry and her new-found friend (one of more than 32 lambs born in Greenfield Village this season) crept into the Museum when it became apparent that March would come in like a lion. Lambs, calves, colts and other baby animals, with their mothers and fathers, can be seen in the Village at the Country Fair of Yesteryear, May 23-25.

The Lenten Season

(Editor's Note: The following article is the second in a series of Lenten Sermons by area pastors and leading churchmen. This week's article was submitted by Rev. Richard C. Welsh, assistant pastor of St. Anthony's Catholic Church, Belleville.)

Among early Christians, only those who had committed great crimes came forward to receive ashes and do penance during the season of Lent.

On Holy Thursday when these "public penitents" were admitted again to the community, they seemed so happy, so innocent, so converted that they fairly trembled with happiness and fervor.

Seeing them, everyone else wanted to become a penitent next lent, and know a similar renewal.

For them lent was "Good News", God is coming to us, "full of tenderness and compassion, patient and most merciful." (the prophet Joel) For us too often Lent is bad news. Do penance? Gloom falls as everyone begins to fear for what is most dear to him--his wallet, his cigarettes, the movies.

WHY THE reversal? Perhaps we should just do things that we can do lovingly and joyfully. You may hate to give up cigarettes, but you would gladly give me one if I needed it, even if it meant going without it. You would hate to take half a lunch to work, but you would be happy to share half with me if I forgot mine.

Sharing is better than self-inflicted pain. It would be wise to look for a lenten penance in the way of giving, helping, serving. Jesus willingly went up to Jerusalem to suffer and die--not because suffering and death have any value in themselves--but because he loves us and wants to show us the way to trust the Father as we pass through death to life. For us, Jesus was glad to die.

"Is not this rather the fast that I have chosen? Deal thy bread to the hungry, and bring the needy and the homeless into thy house: when thou shalt see one naked, cover him, and despise not thy own flesh." (the prophet Isaiah)

School Millage Increase Defeated in Van Buren

Proposal Rejected By 1,499 - 511 Vote

Electorate Approves Plea For Renewing 4.50 Mills

By HENRY CANTIN
ANP Staff Writer

BELLEVILLE--Voters of the Van Buren School District overwhelmingly rejected a Millage Increase Proposition by a vote of more than two to one in Monday's special school election.

A Millage Renewal Proposition also submitted by the Van Buren Township Board of Education was approved by the voters by some 200 votes.

Robert A. Hay, secretary of the School Board, in charge of the election count reported that voting was "consistently strong" during election hours.

A TOTAL vote of 2,050 was cast representing less than 30 per cent of the school district's registered voters - some 7,500, he reported.

Monday's vote was several hundred votes above previous election totals that averaged 1,600 votes.

The Board of Education sought approval on two Millage Propositions; one calling for the renewal of 4.50 mills per \$1,000 of assessed property valuation which is expiring this year, and the second for an increase of 5.50 mills per \$1,000 of as-

essed property valuation, state equalized.

The millage was solely for school operations for the next five years.

Voters rejected the millage increase by a vote of 1,499 to 511. It was the heaviest NO vote recorded on a school millage request in many years. Some 2,010 persons cast ballots on the millage hike proposal.

THE VOTE on the millage renewal was approved by a vote of 1,135 to 907. In all, 2,042 voted on the mill levy renewal.

The School Board will meet in regular session March 11 and will discuss the millage hike defeat and probably announce a course of future action, Hay reported.

Members of the School Board, school administrators and officials had urged approval of both millage requests as "vital" in maintaining current school programs and educational services. And to meet increased

ON REZONING

Referendum Set May 7

BELLEVILLE -- A referendum vote on the rezoning of 147 acres of land for the construction of a proposed large apartment complex will be held on May 7, Louis A. Toth, Van Buren Township supervisor, announced.

Petitions seeking the refer-

endum vote and containing 864 signatures were filed with the Township Administration.

The petitions were initiated by the Van Buren Civic Association that objected to the apartment complex as well as other area residents.

THE SIGNATURES were

checked for eligibility (have to be taxpayers and property owners in the township) by Mrs. Erma Jean Payne, township clerk, who reported that a majority of signatures for the recall of the election were obtained.

THE BACKERS of the petitions needed only 575 signers based on 15 per cent of the present total vote registrations of the Township.

As of edition time, 588 signatures were approved sufficient to call the election, Mrs. Payne reported.

The land, located on Belleville Lake frontage between Denton and Beckley roads and I-94 Expressway, is owned by Henry and Zora McMullan.

Tag Office Sales Top Last Year

BELLEVILLE -- Sales of 1968 automobile license plates at the Belleville Branch of the Secretary of State up to Saturday, March 2, exceeded sales of last year, Mrs. Margaret Boles, manager, reported.

This year's sales reached 12,000 as against a total of 10,000 at deadline time last year, she stated.

Belleville police reported that motorists driving cars without the new license plates will be ticketed. Driving with an expired license plate is \$5 and if the car is towed away by police an additional \$5 to 8 is added, Police Chief Irwin W. Stech, said.

Members of the Belleville Kiwanis Club assisted the local branch office during the month of February. Mrs. Boles asked the Enterprise-Roman to express her thanks and appreciation to the Kiwanians for the fine assistance.

Van B. To Meet on Lake Buy

BELLEVILLE -- A meeting with officials of the Detroit Edison Company on the possible sale of Belleville Lake, along with 101 acres of adjoining land owned by the firm, to Van Buren Township is scheduled to be held tomorrow (Thursday) March 7, Louis A. Toth, supervisor, announced.

The firm has expressed a willingness to sell the lake to the Township for \$400,000 and the land acreage for another \$400,000, Toth reported recently.

Officials planned to discuss various phases of the possible purchase (up to voters), maintenance costs of the lake and its dam.

"If the Township purchases the lake and land," Toth said, "it would serve as a master park for the whole township."

Name Haney

ROMULUS -- The appointment of Frank Haney of 9784 Shook road, as a member of the Board of Review for Romulus Township, was approved by the Romulus Board.

Haney will serve on the Board of Review for a four-year term expiring March 30, 1971.

FOR MOBILE HOMES

Rezoning Petition Denied By Planners in Romulus

ROMULUS--A petition seeking the rezoning of 76 acres of land in Romulus Township for a proposed Mobile Home Court was denied by Romulus Township Planning Commission last Wednesday, Feb. 28.

The Planning Commission's disapproval of the petition, filed by Hyatt Construction Company, 35915 Clinton, Wayne, owners of the acreage, was made at the conclusion of a public hearing that attracted some 90 persons.

The petition asked that the land parcel be rezoned from R-1-B (residential) to R-4 (Mobile Home Court). The site is located on the north side of Wick Road, east of the Chesapeake and Ohio Railroad tracks.

MEMBERS OF the Romulus

Community Schools' Board of Education as well as area residents attended the meeting, Joseph Wallis, commission secretary, reported.

The School Board, headed by President Carl W. Morris, objected to the rezoning stating that it was not as good a tax base as single homes and that the school system couldn't presently afford the burden of additional school-age children that the 467 trailer proposed units would add to school enrollment.

Wallis said. The township has two other trailer courts: Royal Village Trailer Court, located on Van Boren Road, east of Middlebelt Road, with 252 occupied units; and the Maple Grove Trailer Court, located in the same area, with 62 occupied units.

Darryl Raymond, Sr., Honored by Belleville Area I.O.O.F. Lodges

BELLEVILLE - Darryl Raymond, Sr., prominent Belleville businessman, was the guest of honor at a "surprised" dinner held under the auspices of the International Order of Oddfellows.

The dinner and festivities that followed were held in "recognition and tribute" to Raymond for his many years (57 years) affiliation and active service with I.O.O.F.

Some 70 relatives, associate

members and friends of Galaxy Lodge No. 384 and Astral Lodge No. 250 attended the 6:30 p.m. dinner prepared by the Oddfellows and assisted by Rebekah's on Feb. 27.

This was one time the men

set up the tables, served the food, poured the tea and coffee, (and they were supposed to wash the dishes,) but, somehow, they managed to get out of that chore.

The dinner was delicious and consisted of roast beef, mashed potatoes, gravy, relishes, salads, hot rolls, cakes of all kinds, and many luscious pies. Most everyone agreed they ate too much, (as usual) but, after the tables were cleared, all joined in singing, "God bless America."

RAYMOND was very surprised, when Russell Price introduced him and told him the reason for the "Get together." Russell presented him with a medal signifying his many years of membership, but gave the honor of pinning the medal on him, to his wife, Josie.

Darryl remarked that "It was not the first time that his wife had pinned him to the wall." All present sang "For He's a Jolly Good Fellow."

Sister Effie Kerbyson, Noble Grand of the Astral Rebekah Lodge, also presented Darryl with a gift certificate. She said she had tried in vain to get an idea of what to buy for Darryl, but discovered he was one of

There were 54 Saint Bernards participating the show that draws entries from all over the country and Canada.

It's a more economical way to call Long Distance because direct dialed calls are all Station-to-Station instead of Person-to-Person. It's easy, too. Just dial "1", then the Area Code, if it's different from your own, and the number you want. For an idea of how much you can save, here's an example. A 3-minute Person-to-Person call between Detroit and Chicago costs \$1.30 at the day rate. Dial direct and the cost is only 85¢. A FORMER mayor of Belleville, Fay Fielder was also present, along with his wife and family. He gave Darryl credit for his outstanding service to Belleville in the past. Mayor Smith also said that Darryl is still, at the present time serving the City of Belleville in one or more capacities.
Many dignitaries of the Odd-fellow Order were on hand for this unusual occasion.
Among those present were: Grand Master for the State of Michigan, Sidney A. Feldhak and his wife, Ella; Mrs. Mable Alexander, past President of the Rebekah Assembly, and secretary of the Home Board; Past Grand Master Carl Kiefer and his wife, Laura, the oldest living past President of the Rebekah Assembly; and Thomas Barnes who is Grand Patriarch, of the Grand Encampment of Mich., I.O.O.F.
Master of ceremonies for the occasion was Noble Grand of Galaxy Lodge, Everett Meggett. Each one of them congratulated Darryl, and wished for him many more years of service and happiness.

ONE OTHER nice feature was the fact that Darryl's two sons and their wives and children, were able to be present.
Darryl mentioned the fact that he and his wife will soon celebrate their Fiftieth Wedding Anniversary, and each and every one wished for them both, many happy years together.
To complete the evening, a representative from the speaker's Bureau of the Edison Company showed slides titled, "Prophesies for the future," which was very interesting.

Approves Insurance

BELLEVILLE -- Life insurance policies in the amount of \$1,000 will be provided Van Buren Township employees, Louis A. Toth, supervisor, announced.
The Township Board last week approved life insurance coverage for some 55 employees embracing the Fire and Auxiliary Police Departments, elected officials, and two part-time DPW employees.
Total costs to the Township will be \$635 per year. The life insurance is being procured through the Michigan Townships Association, Toth reported.

Full-time employees of the Township are presently covered by a pension program. The life insurance begins this year. Anyone working for the Township is very vulnerable to mishaps. Their salaries are not comparable to other communities. The least we can do is give them some protection while working for the Township, Toth commented.

When Clemson University opened its doors in 1893 there were only 446 students. Today the enrollment is more than 5,000.

Saturday, March 8 from 8-11 in the school cafeteria is where the Ugly Man will be crowned by last year's Ugly Man, John Gasdilo. Tickets for the dance are 50 cents stag, 75 cents drag. The "Forward Movement" will be the musical entertainment for the evening.

COMMITTEES for the dance have been set up. They are: Nancy Merecki, advertising; and Alma Memering and Cheryl Carr, decorations.

Comedians Hold Clinics

BELLEVILLE -- The Galloping Comedians' 4-H Club held their monthly horse meeting at the Donald Curry's in the absence of the vacationing Robert Haywards. The Comedians have a new horse project member added to their club. Her name is Marla Doonan. The Galloping Comedians have spent the last two Saturdays attending horse clinics and learning the techniques of judging horses in a show class. The first clinic was held in the horse arena at the Edsel

Beatty farm on Bog Road featuring quarter horses, and last Saturday's Clinic was held at the Hi-Crest Farm, at Brighton, owned by Dick and Sylvia Measel featuring Arabian and Morgan horse classes.

In the evening some of the members attended the Morgan Horse Association meeting at Salem, Michigan and viewed two movies shown by Doctor Lickfeldt on the foaling of mares and another on the unsoundnesses of the lighthouse.

Mrs. Donald (Glenice) Bosman was the worthy recipient of the Founders Day Award given by the Huron Schools PTA February 28. Mrs. Bosman has an impressive record of community service. She is an officer in the PTA, is on the Board of Directors and an officer of the Huron-Brownstown Community Chest; and is also active in the Ladies Aid of St. Paul's Lutheran Church.

The award was presented to Mrs. Bosman by Mrs. Louis Berry, Awards Chairman.

The students were assisted by their teacher, Mrs. Bondy and Principal William Balwinski.

A new driver education class,

MR. AND MRS. CECIL H. SHIMMEL

All Around The Town...

WITH LEE

FUTURE BRIDE HONORED

CONNIE BATHURST, who is making plans for her April 20 marriage to John Sell, Jr., was guest of honor Sunday, February 25, at a bridal shower. Held at St. John's Lutheran School gym, the party was planned by Nancy Harrison, Ethel Westphal, and Brenda Sell, sisters of the prospective bridegroom, and also Betty Sell, their sister-in-law.

The honoree wore for the occasion a pink dress accented by an orchid corsage sent direct from Hilo, Hawaii by a friend, Kathy Strable, who was vacationing in the Islands. The afternoon of bingo was highlighted by the opening of gifts and a buffet supper. Friends and relatives traveled from Lapeer, Tecumseh, Rockwood, Wayne, Taylor, Ann Arbor, Ypsilanti, Romulus, and Belleville to take part in the happy event.

IN FROM THE 'ISLANDS'

WINGING THEIR way home last Tuesday, February 27, from the West Coast and the Hawaiian Islands were four couples from Belleville - Bob and Jean Hayward, of Savage road; Joe and Pat Schlund, of Belleville road; Frank and Catherine Day, of Savage road, and Don and Betty Hlenfeldt, of Expressway drive.

The group departed from Michigan three weeks prior and jetted across the Pacific to Hilo, Hawaii, where they spent three days of their three-weeks vacation. A new experience for the fellows was hunting goat - bow and arrow fashion - with two guides in the mountain region. Their wives, in the meantime, paid a visit to a former Belleville gal and neighbor of the Haywards, Kathy Serant, (now Mrs. Minor Takehiro), and her four daughters, in Hilo. Her husband was away on business in Honolulu, but her mother, Mrs. Peter Serant, of Belleville, was on one of her visits to the Islands and was able to be part of the reunion.

Before hopping to the second of their islands, Maui, the men (with Pat and Catherine along) tried their luck at deep sea fishing for marlin near Kona. Taking a tour provided by their hotel, the four couples also viewed the island's volcanic eruptions - both at night and during the day.

On Maui they had the experience of eating with the native cutlery - chopsticks - at an authentic Polynesian dinner prepared by the hosts at their inn. Then, too, there was the drive up to Mount Haleakala, some 10,000 feet above sea level, to see the University of Michigan's Observatory ... reported to have been a mighty windy excursion!

Flying over to the third of their four-island stops, Kauai, the group spent three days viewing the 'Garden Isle' then proceeded onto Honolulu for their final four days. Pearl Harbor, Waikiki, and a Polynesian village were just part of their many activities. Unfortunately, the pickers were on strike so there were no tours of the pineapple plants available.

For their return to the Mainland, the Hlenfeldts took off for San Francisco for a visit with their daughter, Sharon, who is working for Pan American Airways, while the other six had Los Angeles as their destination.

At L.A. they were met by the Haywards' son, Bob, who had a week-end pass from his Air Force duties at Point Mugu. Acting as guide for his parents and friends, Bob, showed them Disneyland, Knott's Berry Farm, and Marineland, as well as a number of other tourist spots.

The Days enjoyed the trip knowing full well their three-some, Shirley, Jack and Karen, were in the best of care. Catherine's mother, Mrs. Fred McKeen, came over from Wayne to stay with her charges while their parents were away.

HERE 'N THERE

THE WEEK-END before leaving for Houston, Texas, (and a week's stay with her husband, Ed), Mary Anne Hudge was the guest of her mother on two different occasions. Her hostess, Mrs. Wilfred Kane, of Wyandotte, had tickets for her and her daughter, Nancy, for the musical production, "Oklahoma." Presented by the Wyandotte Community Theatre Group, the show was held at Wilson Junior High School, in Wyandotte. Then on the following Sunday the two ladies attended a champagne brunch sponsored by the Wyandotte Soroptimist Club at 'Elmer's Rustic Inn' in Wyandotte ... THEIR MONTHLY couple's club took three Belleville pairs out to the Willis home of Marie and Eldon Lamkin on the 24th of February - Bob and Mildred Baker, Ray and Lee Van Buhler, and Laurin and Lois Waldecker. Their host and hostess had planned an ice skating party (there's a nice pond on their acreage) followed by ping pong and a social evening topped with a late supper of pasties. Also attending were the Harold Frys and the Arden Klopschinskys, from

AT METHODIST CHURCH

Florida Honeymoon Follows Shimmel-Sweet Nuptial Rite

Lighted tapers and white mums adorned the altar of the First Methodist Church of Belleville for the February 17 wedding of Dianna M. Sweet, of Milan, and Cecil H. Shimmel, of Belleville.

Some 125 guests witnessed the single ring ceremony which united the daughter of Mr. and Mrs. Gerald Sweet, of 16821 Couper road, Milan, and the son of the Cecil Shimmels, of 600 Sumpter road, Belleville.

For her wedding day, Miss Sweet chose a formal gown of Chantilly lace fashioned with a scalloped neckline studded with crystals and traditional wrist-point sleeves. Six tiers of lace comprised the bouffant skirt which cascaded into a chapel train as she walked.

Her butterfly veil, an Italian import, drifted to waist length and was held by a crystal and lace bow headpiece. Her bouquet was made up of white carnations and daisies.

THE BRIDEGROOM'S sister-in-law, Mrs. Helma Shimmel, of Belleville, wore a pink satin gown for her role as honor attendant. A matching flowered headress and a bouquet of pink carnations completed her ensemble.

As the only bridesmaid, Mrs. Hane Sweet, of Detroit, sister-in-law of the bride, donned a formal turquoise gown with a matching headpiece and held a bouquet of harmonizing carnations.

Five-year-old Myra Montgomery, daughter of the Carl Montgomerys, served as flower-girl. A cousin of the bride, she wore her white first communion dress and added a headpiece to match that worn by the bride. She carried an

arrangement of carnations and roses.

Kenny Shimmel, of Belleville, was his brother's best man, and the bride's brother, David Sweet, of Detroit, was usher.

Following a reception in the church parlour, the newlyweds departed for a two and a half

week honeymoon in Florida, after which they will make their home in Belleville.

The new Mrs. Shimmel graduated from Milan High School, while her bridegroom, an employee of the Ford Motor Company at Ypsilanti, is a Belleville High alumnus.

Breakfast Patterns

If teenagers feel like turn-ing up their noses and skipping the regular breakfast patterns in your home like bacon and eggs or cereal and panfried ham, do a quick change and offer them a breakfast steak in a bun or even a ground beef patty or a hot dog.

They'll eat protein for break-fast, that way! They won't have a mid-morning lag or be tempted with sweets and starches.

Girl Scouts Cookie Sale Underway

March 1 thru March 16, the 10,474 Girl Scouts of Huron Valley Girl Scout Council will be knocking at our doors. The girls are taking orders for the annual Girl Scout Cookie Sale with deliveries to be made April 22 thru May 1.

When you place your order, you are helping Girl Scouts help themselves. With the profits, troops add to the troop treasury for special programs, and the council develops camp properties. With profits from 10 years of sales, Huron Valley Scouts are purchasing 400 acres of wooded land near Linden, Michigan. The site is being developed for a permanent resi-dent camp. Thus far, through cookie sale efforts, a com-bined winterized troop cabin-dining hall, a beach, and tent units have been erected. This year the Girl Scouts hope to add another tent unit and a shower house. Camp Linden is used year-round for troop pro-gram in the out-of-doors.

In addition to the camp de-velopment, profits help send girls needing some financial assistance to camp.

Directing the council sale, Mrs. Albert Flucey, Plymouth, is assisted locally by Mrs. Daniel Hicks.

"200" CLUB

OUT AT Lodge Lanes there's a listing of high scores rolled by both men and women leaguers but it was the woman's results that surprised us - those rolling better than 220 games such as 254 netted by Mary Grant who topped the list. Being an ex-leaguer bowler and knowing a bit about the game, (especially how hard it is to hit 200), we figured it worth a little space in 'All Around the Town.'

Following Mary with 252 is Glenda Cornette; 251 for Burt Latoski; 241 for Millie Latoski, and 239 for Grace Willis.

Then there's Glenna Garrugia and Madelyn Mason, both with 236; Donna Nowoskelski and E. Williams, each with 234; Kay Jaszcz with 233; Marge Maton, 231; Sue Purczynski and Virginia Brewer each with 230; Bev Crawford, 227; Shirley Silvery, 228; and Henrietta Strong, 227.

'My Story from Vietnam!'

VIETNAM - Vietnam is divided by the Military into four basic groups. They are known as: I Corps (northern most section), II Corps (north central section), III Corps (south central section), and IV Corps (southern most section).

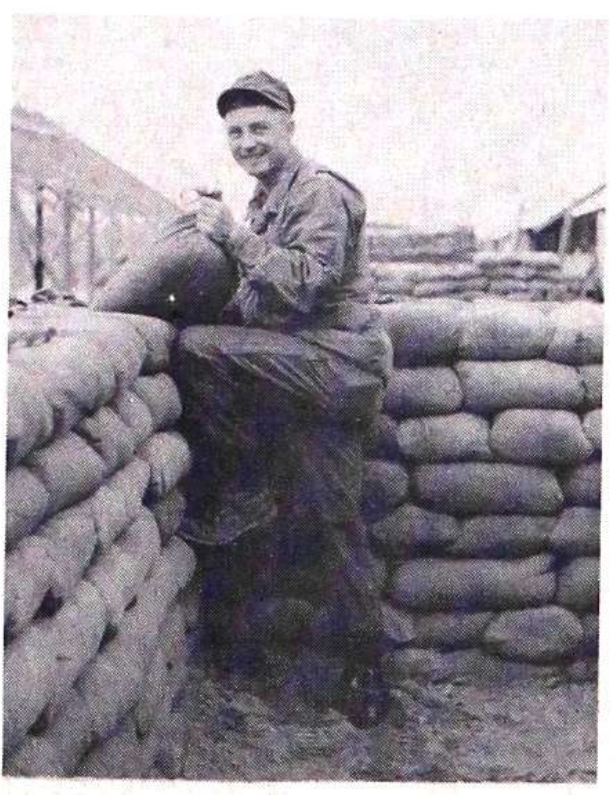

I am presently working out of the I Corps area and assigned to cover photographically the combat operations of the 1st Marine Aircraft Wing in Quang Tri Province, located approximately 13 miles south of the DMZ. I find myself also covering some of the nearby Marine outposts such as Khe Sahn, Hill 881, Hill 861, and other nearby hills. Whenever, duty calls for aircraft support, whether it be fixed wing (jets) or helicopters that is my responsibility to photographically record such operations.

My living quarters are at a newly formed air strip (the northern most military air strip in Vietnam) known as Quang Tri. Upon completion of my assignments and due to the remote areas in the north it is necessary for me to make my way south to DaNang where I am able to get my film processed. I work in the north but must process my film in DaNang about 60 miles from Quang Tri. This is the closest area which has facilities to process film.

The main photographic section of the 1st Marine Aircraft Wing (1stMAW) is set up in DaNang. Transportation utilized consists of any type of aircraft that I can catch a hop on that is going to DaNang. There are no truck convoys due to the dangers of mines and ambushes by the enemy. Flying is the safest way to move around in Vietnam. Presently all eyes are focused on the small remote Marine outpost, Khe Sahn (8-10 miles from DMZ and 30 land miles to my northwest from Quang Tri airstrip).

Intelligence reports 40,000 North Vietnamese Army regulars surrounding Khe Sahn. 6000 Marines are holding at Khe Sahn. These men must live 12 feet below the ground due to the constant rocket and mortar barrages by the NVA. Due to the bad weather it makes it hazardous for our jet aircraft to support the Marines held up there. Much needed supplies at nearby Hill 881 and 861 are sometimes delayed due to bad weather and enemy 50-cal. machinegun fire and rockets.

The North Vietnamese Army is led by Gen. Giap, who planned the successful defeat of the French in 1954 at Dienbenphu (spelling??). All are waiting for a possible ground attack on Khe Sahn. Gen. Giap has built up almost all his forces and supplies in the Khe Sahn area. This could only mean or at least be on the alert for an all out battle. Their

LOTS OF SAND, BUT NO SEASHORE
Building Bunkers Against Mortar-Rocket Attack

(NVA) morale is low and they need a military victory -- they may be hoping on defeating us at Khe Sahn. All surrounding units in the I Corps area are standing ready to reinforce or support the Marines at the Khe Sahn if the much apparent ground attack comes.

Morale throughout Vietnam, in all sincerity, is very good. I can speak for the Marines whom I've seen and worked with. Logistics are excellent and better than in any previous war. Bad terrain and weather does not keep the helicopter from supplying and resupplying our men in Vietnam, no matter where they are located. Thank God for the helicopter!

Mail, the number one morale builder, is delivered very regularly. "Bullets, beans, and mail" are priority cargo carried to the men in Vietnam at any location. These are much needed items and the men of the helicopter squadrons are doing an outstanding job in getting them delivered to the men. Needless to say the helicopters are the workhorses of the military and life-savers. They are also used for med-evacs. (Medical evacuations). Many times when men wounded cannot be reached, helicopters fly in and pick up the wounded and take them to a hospital ship off the coast of Vietnam where the finest medical staffs and equipment are available.

Living conditions vary from unit to unit and location to location. Of course, if your

unit is constantly on the move tents are the quarters; if you're at a permanent installation, barracks are the quarters. Since the military plans on the air strip being a permanent area, I live in a hut or small barracks with five other men. It was built by the Seabees of wood and metal roofing. Plenty comfortable for being in such a remote area and under combat conditions. No doubt, the men of Vietnam are housed, fed, and supplied much better than their counterparts in previous wars.

THE PEOPLE of Vietnam: North Vietnamese Army (NVA) Regular -- Usually is about 21-24 years of age. Basic training and advanced training is given in the north. Carries a 75-pound pack of rocks on his back all through training to ready him for his long journey deep into South Vietnam. He will carry much supplies or possibly ordnance on his back and walk all the way. No transportation is available to the NVA. Sometimes his journey will take him 300-400 miles, walking all the way. He must travel by night and during the day. If our aircraft spot him from the air his chance of a successful journey becomes very slim.

Upon reaching his destination he is given a little more training and up to date information on fighting tactics in the South. At the beginning of the war, he was told he was fighting to liberate the South from American imperialists. Now they've changed their motives.

SGT. RONALD ZIELINSKI, former Associated Newspapers staff photographer and Wayne Memorial High School graduate, whose parents now reside in Romulus, is now

serving with the U.S. Marine Corps in Vietnam. The accompanying article was sent from there this past week.

The NVA is now told he is fighting to protect the north from invasion by the American imperialists. After seeing they could not win in battle in the south, they had to change their reason for being involved.

If the NVA is wounded he can pretty much count on death or loss of limbs. He has almost no medical facilities to assist him if he should become wounded -- and with this climate a small wound can result in a serious infection. Poor medical staffs and supplies hinder his survival after being wounded. His resupply of food, ammo, etc. is exceptionally poor. However, they do manage to get enough supplies to continue on.

NEXT IS THE Hard-core Viet Cong: Trained by the NVA, but not as well trained, he is the next individual in the enemy ranks. His problems are about the same and some times more so since the NVA (being the better soldier) gets most of the support and supplies.

VIET-CONG: Third in the enemy ranks. He is picked from South Vietnamese families and forced to fight or have his family killed. He lives within his hamlet (village) and sets booby traps and gathers information for the enemy. At night he plays the role of a sniper and during the day he acts the part of an innocent peasant farmer. Many times it is not his fault he is VC. I wonder sometimes what we would do if someone had the drop on us -- and if we didn't fight for them our families would be killed. Many times when the South Vietnamese refuse to aid the VC, their heads are cut off or their families

shot before their eyes. I wonder what anyone would do in such a situation. Problems the same.

THE VIETNAMESE people themselves: The common people are a very poor people. The very things the American people take so much for granted they must work all their lives for and still never obtain. America has so much to be thankful for, so very much. They're a very crude people, knowing little or nothing about personal hygiene or cleanliness. For this reason disease is at a maximum. Unclean water aids the situation, along with improper diet and nourishment. The woman of the family does most of the work. She will also travel to the markets and do all the bargaining for the family. If she is not a good bargainer, then she is a failure as a wife -- so believe the South Vietnamese. Living conditions in all aspects are sad. Buddhism is the largest religion in Vietnam.

ARMY OF THE Republic of Vietnam (ARVN): Here is the individual who is supposed to be fighting at the side of the Marines. A hardly reliable individual and sometimes cannot be trusted. True, there are some units of the ARVN that are darn good fighters and faithful, but they are the minority. In intense combat, after talking to the Marine infantrymen, they would rather sit back and let the U.S. Marines do their fighting for them. When taking a hill the Marines are out in front and they slowly fall to the rear. They frighten very easy. They are not the hard fighters the NVA are. Basically they are lazy and cowards. Again, I repeat, this is not the case with all units of the ARVN.

To tell you of one incident involving the ARVN: A helicopter pilot was flying a group of ARVN into an enemy zone so they could secure an area big enough for the helicopter to come in and land without receiving too much ground fire. Upon landing they refused to get out of the helicopter. The crew had to force them out. They were so angry at the helicopter crew that they pulled the pin on a heat grenade and wedged it between one of the seats of the chopper hoping the vibration would jar it loose and ignite the grenade. Thank God it didn't jar loose and the crew chief found it after they returned to base. This is our faithful and grateful ARVN. This is the thanks we get for helping them. There are other cases but I do not want to go into all of them. So now the crew thoroughly checks all helicopters after transporting an ARVN unit in their birds.

I must say this, the Republic of Korea (known as ROK's) have some outstanding troops here. The NVA fear them like the plague. They are hard fighters who fear nothing. They have fought along side of us and can very much be trusted. I have heard nothing but good reports from Marine infantrymen about our allies the South Koreans.

Many times an ARVN will have a relative in the ranks of the NVA and just as soon as the going looks bad he will turn against you. There has been cases told to me where the U.S. Forces had to booby trap the machine guns used by the ARVN. They were set so that if they were revolved more than 180 degrees on their mount they would explode. This was

MARINE SGT. RON ZIELINSKI
Camera Isn't His Only Weapon

to prevent the ARVN from revolving the gun completely around and turning the gun on our troops when things were looking rough. They (ARVN), it is said, will switch to the

side of the enemy when the going gets tough. They work with the "winning side." It is a sad thing to say, but it has been proven to be true, according to the reports I get.

If the thought of buying a new furnace bothers you, read this new Three-Step Protection Plan.

First, call Edison. We'll give you the names of electric heat contractors near you. Each has been Edison-approved as capable and reliable.

Next, the contractor will check your home, review your needs, and recommend the type of heat best for you. He will estimate both installation and operating cost and give them to you in writing. All without obligation. We'll check the quotes if you like.

Then, after your new electric heat system is installed, Edison and your contractor will make any adjustments necessary to the system if operating cost exceeds the original estimate during the first three years of use. At the end of this time, if operating cost still exceeds the estimate, and you aren't satisfied, Edison will remove the system and refund your original price.

That's our new Three-Step Protection Plan. Remember the first step. Call Edison.

WAITING FOR THAT bouncing ball to come down are Belleville's Norm Harrington (54), Bentley's Dave Sterling (23) and Bob Fowlkes (22) in the final game of the Suburban Six Conference. Bentley, after getting resistance

from the Tigers in the first half, went on to win its tenth consecutive league game, 56-41, to capture the league title. Belleville's John Yocum (center picture) finds himself down on the floor with the ref towering over him

while, at right, John Gasidlo (30) dribbles by Sterling. Belleville, with a 2-8 league record, finished in a two-way tie for fifth with Allen Park in the league and travels to Eastern Michigan University for the district playoffs.

Belleville tuned up for the district playoffs Friday night by playing one of its best games of the current campaign against undisputed and undefeated Suburban Six Conference champ, Livonia Bentley.

Bentley, which had sewed up the title before the encounter with the Tigers, had previously won nine straight in the league. The Bulldogs were forced to sweat it out before claiming their tenth, 56-41.

Belleville stayed close behind in the first period, holding the taller Livonia quintet to 14 points while the Tigers slipped in 10. Led by Wilson Boone and Bob Fowlkes, Belleville came within a basket of tying it up at halftime, closing out the period on the short end of a 25-23 margin.

Fowlkes bagged four points and Boone five of his 14 points in that second period.

Belleville lost its poise momentarily in the third period as Bentley made good use of a couple of miscues to pull away 42-29 at the end of the third period.

Although the Tigers recovered from that 17-6 third period, they were never able to make up the difference.

Belleville's John Yocum did an excellent job containing 6-5 center, Ken Bollin who was held to 12 points for the game.

Yocum finished up with seven. In double figures for coach Larry Hulce's team was Boone, who hit on four fielders and six free throws for 14.

Bentley collected 14 points

each from Mark Chlason and Dan Doyle.

Belleville cashed in on 11 of 18 from the foul line to Bentley's 10 of 15. The Tigers, with a 2-8 league record, finished in a tie for fifth place with Allen Park.

REGIONAL CHAMP - Belleville's outstanding grappler, Brad Warrick, added another trophy to his personal showcase last week as he topped the field of 95-pounders to claim the regional crown at Trenton. Warrick, undefeated in 33 matches, and Romulus' Ralph Logan, a 127-pound class grappler, will compete this weekend for State honors at Jackson Parkside.

Mike Woods and Nolan Street teamed up to supply Romulus with more than half of its points to lead the Eagles to a 78-55 victory over Monroe Catholic Central.

The victory assured coach Al Duva and the Eagles of third place, two games behind the Twin Valley Conference co-

champs, Ecorse and Rouge, which finished the league year with identical 8-2 marks.

It was also the third consecutive year that Romulus had ended up with a winning season, finishing 9-7 overall after a dismal 2-6 start.

Woods, who has been potent on defense as well as offense, hauled in 23 rebounds and fired in 12 field goals and four free throws for 28 points to finish

the night as highman. Team-mate Woods, who has been averaging 25 points plus in the second round, drilled in eight from the field and nine charities for 25 points.

The only other Romulus cager

to get into double figures was Larry Smith who accounted for 10.

Romulus leaped out in front 24-12 in the first period and was never seriously challenged for the lead after the initial

quarter. The Eagles were way ahead, 42-26, at the end of the first half and took a 66-36 lead into the final period.

Monroe, which has won one of its 10 starts in the league, received double figures from Bill Valasco who had 16 while Larry Schaffer and Dan Nagy

THE SPORTS MERIDIAN

By Tom Mooradian

Doc Analyzes the Sports Meridian

The meticulously dressed man nonchalantly approached the receptionist and, after she pointed her finger to me, the stranger strolled over to my desk. He fumbled for a few seconds in his pockets then pulled out a pair of "eyes" and threw them before me.

"You see," he said breaking the silence, "we do have four eyes."

This was my first introduction to Bernard "Doc" Kosteva, president of the Hawthorne Valley Sports Association and past president of the Michigan Athletic Officials Association.

In other words, "Doc" was a ref.

"What can I do for you?" I asked not too innocently.

"It's not what you CAN do, sir, it's what you DID to us a couple of columns ago that brings me here."

"It wasn't that bad," I said.

"It wasn't good," he added.

Doc proceeded to stack books, papers, letters and communications on top of my desk and, as the Tower of Babel grew I asked him to stop before the gods became angry.

"Well, the next time you decide to write a column about how poor the officiating is and about our profession, would you please read these books to get the facts," said the Doc.

"What facts?" I asked.

"That's it, Butch, you don't know the facts. You're writing things that ain't necessarily so."

And for the next five and a half hours, Kosteva went on to say what is so.

Don't Talk a Good Game-Play It

He said that many of the coaches don't know the rules, that some of them would actually come to a game and ask him before the match or at intermission, "What's new," or "Why can't we do this anymore?" and that the Hawthorne Valley Sports Association, in previous years, had organized clinics for

IN POSITION for the rebound are Belleville Wilson Boone (24) and teammate John Gasidlo (30). The Tigers stayed abreast with the Suburban Six Conference champs, Livonia Bentley, in the first half but lost their poise in the third quarter and dropped a 56-41 decision to the Bulldogs. The game brought down the curtains for the 1968 league season.

Tigers Clean Up on Mats

A dramatic climax to a slow start lifted Belleville grapplers to a 39-8 victory over Livonia Stevenson which clinched a winning 12-8 year for coach Jim Richendollar and his Tigers. The victory over the Livonia

matmen wound up the dual meet season and only Brad Warrick, the Tigers' Suburban Six and Regional champ, has unfinished mat business.

Warrick will participate in the State Finals to be held over

the weekend at Jackson Parkside.

Against Stevenson, coach Richendollar moved his 95-pound champ to the 103 category and he responded by gaining a 10-1 victory over Dennis Belknap, the regional champ at the John Glenn meet.

Mike Roberts filled in for the Tigers in the 95 pound bracket and he surrendered three points to Bob Strong, 2-0.

After Warrick disposed of Belknap, Darwin Loyer decided on Mayville, 15-2, in the 112 while Phil Post pinned Bob Fical in 3:30 of the 120 match to give the Tigers a 11-3 edge.

Belleville increased its lead by three more points as Doug Eye strolled away from the mats with a 4-0 victory over Frank

Kokenakes in the 127 pound bracket.

Stevenson gained two points on Manuel Strong's performance in the 133 where Brian Phillips was forced to settle for a 2-all draw.

Steve Hampton won a convincing 10-4 verdict from Rich Avis in the 138 while Mark Giellnickl wrapped up the season with a 5-30 fall over Howard Kimmel in the 145.

Stevenson then forfeited the 154 pound match to Gene Turney, the 165 to Bruce Hampton and the heavy weight to Ellis Shropshire while Wendell Howell yielded the final three points to Stevenson and Larry Meyers when he dropped a 16-6 decision.

er, Ralph Logan, who finished second in the Trenton Regionals, Logan missed the first place medal when Ypsilanti's Smith was able to emerge from the mats with a 5-2 decision.

The Romulus matman reached the finals via victories over Jim Attwood, Ralph Donnelly and Louis Tessier, Logan, in the preliminaries worked 5:55

with Tessier (Southgate) before claiming a victory on a fall.

He then went on to pin Fordson's Donnelly in 5:25 while Trenton's Attwood surrendered on a 3-1 decision.

Romulus' Nate Williams, who entered the regionals as one of the heavyweights to beat, finished fourth and didn't qualify for the state meet.

Mike Woods, Street Picked 'All-League'

The Twin Valley Conference, one of the best basketball leagues in the state, honored two Romulus cagers on its 1968 All-Conference team this week.

The two, Mike Woods and Nolan Street, were instrumental in leading Romulus to its third straight winning season.

Woods, a 17-year-old senior, was the mainstay of coach Al Duva's attack. He was a threat anywhere on the floor and wound up as the leading rebounder for the Eagles and one of the top scorers on the team.

Street, also a senior, has been averaging 25 points plus in the second round of league competition and sparked his team to victories over the co-league champs, River Rouge and Ecorse.

Honored on the first team, aside from Woods, were River Rouge's center, Bill Kilgore;

Hamtramck's Cozell Harris, Ecorse's Dennis Smith, and Willow Run's Dave Hart.

Second team selections, aside from Street, included Calvin Smith (Ecorse), Dick Wharton (Rouge), Larry Schafer (Monroe Catholic Central) and Dan Hague (Ecorse).

Free Golfing Starts at Wayne Federal's

Valuable tips to golfers are being offered on Saturdays in the form of free lessons offered by the Wayne Federal Savings and Loan Association.

For the third straight year, free golf lessons are being conducted at the indoor practice range of the Association's main office building in Wayne.

The lessons began on Saturday, March 2, and will be held every Saturday from 9 a.m. to noon throughout the golfing season.

Back again for the third successive year as instructor is Mike Sutko, local golf driving range operator.

"Golfers needn't be Wayne Federal customers," said A.C. Marriott, Jr., president of Wayne Federal, "in order to participate in the classes, but

children under 14 years of age are not eligible to take part."

Wayne Federal's indoor range includes a driving mat and net as well as several "Tee Tutors" - automatic devices that help golfers perfect their swings.

In the previous two years these lessons gained in popularity with the beginner as well as advanced golf students.

"People really seem to enjoy the lessons because they come from all areas in order to take part in them," said Marriott.

Golfers, who are interested in participating, are urged to bring one club with them to the main office which is located at 35150 Michigan Avenue, Wayne.

Balls will be provided by Wayne Federal, and each golfer receives a free name brand ball to keep at every lesson.

Supervisors Looking Favorably On Riot Gear for Road Patrol

DETROIT -- Purchase of riot control equipment for the Wayne County Sheriff's department has been given preliminary approval.

Sheriff Peter L. Buback said the equipment is needed "to provide adequate protection of out-county residents in the event of civil disturbances."

The purchase was approved

by the Sheriff's Committee of the County Board of Supervisors Feb. 28. Approval by the board's Ways and Means Committee and then the full board is still needed. Ways and Means is scheduled tentatively to meet March 19 and the full board March 26.

The list of items includes a total of 148 shotguns and rifles, including five AR-15 automatic rifles; enough teargas-like

chemical Mace to equip 143 officers; 10 armored vests; plus helmets, shields, heavy gloves and combat boots for 90 men. Ten walkie talkies and six electric megaphones are among the items.

The cost of the equipment is estimated at \$43,450.

Most of the equipment is earmarked for the Sheriff's Road

Patrol, which polices the out-county area, and the Sheriff's detail at Detroit-Wayne County Metropolitan Airport. Some would be allocated to county facilities in Detroit - the jail, the City-County Building, the Juvenile Court and Youth Home, and the Old County (Traffic Court) Building.

"We fervently hope that it will never be necessary to use this equipment," stated A. E. Vallier, supervisor from Plymouth and chairman of the Sheriff's Committee. "But we have a solemn obligation to be prepared to protect life and property, if necessary."

In other actions, the Supervisors' Committee of Chairmen of Standing Committees, a policy advisory body, is scheduled to meet Wednesday, March 6, to discuss the report of the Citizens Committee of 99. After studying the county government for a year, the Committee of 99 recommended that Wayne County move to implement the county home rule of government.

Members of the Sheriff's Committee, in addition to Vallier, are Mayor Robert A. DeMars of Lincoln Park; and Luther E. Simmons, Tibor Payz, Alfred A. May, John Cyers and Joseph McCusker, all appointed supervisors from Detroit.

ANOTHER MAJOR MILESTONE was passed this weekend at nearby Metropolitan Airport with the inaugural of direct air mail service from Metro to eleven different countries in Europe. The direct dispatch from the air mail facility will service Great Britain, France, Italy, Netherlands, Germany, Belgium, Greece, Ireland, Poland, Luxembourg and Mexico.

Brief ceremonies marked the placing of the first mail pouches aboard Pan American's Flight-056 to London. Donald L. Swanson, Regional Director of the Post Office Department, and Congressman William D. Ford, in whose district the airport is located, hoisted the first of the European-bound mail aboard the giant jetliner.

To officially inaugurate the new service, supplementing the other out-going mail, Postmaster Edward L. Baker mailed a parcel of miniature automobiles to the Honorable Edward Short, Postmaster General of Great Britain, who had visited the Metro Airport and other local postal facilities last year.

Many other local residents who are members of the Post Office department also were on hand. Among these were Postmaster John Shivnen of Garden City and Postmaster Raymond J. O'Neill of Belleville. Directing the days events was a Wayneite, William "Bill" Hanneman, who is Postmaster of the new Air Mail Facility at Metro Airport.

Though less than a year old, the Air Mail Facility at the airport now is the key distribution point for all letter mail, packets, and Parcel Post from all sectional centers in Michigan. In the short time the facility has been in operation, a staff of over 200 people today are handling over 60 tons of mail per day to and from all parts of the world.

Actually the new direct service to and from Metro Airport will improve delivery to foreign countries by as much as 24 to 48 hours. Direct sealed pouches will be made up for points in Germany such as Frankfurt, Hamburg and Berlin. Other sealed pouches will be

Begin Direct Mail, Metro to Europe

made up to expedite mails to Glasgow and Dublin, Ireland, Paris, Brussels, Amsterdam, Warsaw, Luxembourg and Mexico City will also share this special expediting system.

The Automotive industry and many other business firms throughout Michigan will benefit from this new service. Pan American World Airways and Trans World Airways will be the two major carriers carrying the service to Europe while American Airlines will provide the service to Mexico City.

All three airlines operate daily flights on international schedules from Metro Airport and this factor alone should be an asset to the thousands of servicemen and their families with letters and packages.

While this milestone of jet-age air mail service, where your letters mailed here in western Wayne County are delivered tomorrow in London, is a marvel of our times, a significant item must not be forgotten - that only a few miles from Metro at the Ford Airport on Oakwood Blvd. was the scene of the first milestone reached in the direct air mail service.

It was at Ford Airport that the first air mail service in

FIRST DIRECT AIR MAIL flight took off from nearby Ford Airport on February 15, 1926, 42 years ago, on a Liberty powered Ford "all-metal monoplane" to Cleveland and Chicago via the Ford Air Transport Company.

The world was inaugurated on a scheduled airline. It was on February 15, 1926, that the first contract air mail route was put into operation between Detroit, Cleveland and Chicago. Called the Ford Air Transport, the airline was operating with surprising regularity on its routes with the famed Ford "Tin Goose."

The airplane was an all-metal monoplane powered by a WW-I

A TIRED BUT HAPPY -- Governor George Romney arrived home at Metro Airport last Friday night. A crowd of several hundred persons were on hand with brass band and all to greet the man who had just withdrew from the presidential race. The Governor and his wife, Lenore, seem quite happy in greeting the crowd after weeks of campaigning.

From BHS Model UN Students Selected

BELLEVILLE--Selected students from 80 high schools in Michigan including Belleville High School and northern Ohio will travel to Hillsdale College this weekend for the 19th annual Model United Nations Assembly (MUNA).

Three students have been selected by each high school and will be accompanied by a faculty advisor to the two-day session, March 8-9, on the Hillsdale campus.

MUNA, founded at Hillsdale in 1949 by the late Dr. Windsor H. Roberts, enables young people to debate and "resolve" international affairs through procedures identical to the actual United Nations.

Each high school group represents a country from the official United Nations membership list.

Belleville students Robert Baldwin, Rick Emerson and Karen Grod, will represent the United States. Emil Jones is the faculty advisor.

Supplementing their two days of political discussion will be a guest address by George L. Sherry, senior officer, office of the under-secretaries for special political affairs of the United Nations.

MICHIGAN-OHIO Rotary Clubs and the college International Relations Club sponsor the event, with the latter providing college students for committee advisors, moderators, pages and other offices involved in MUNA procedures.

The first full assembly Friday afternoon will see the election of a MUNA president, three committee chairmen, and three rapporteurs by the high school students from within their own ranks.

The three major committees -- political and security; special political; and social, humanitarian and cultural -- will delve into problems of prominent international concern.

A Wee Bit of Wanderlust..!

By JOYCE HAGELTHORN
ANP Staff Writer

Don Kelly, Western Wayne's Own Irish-rover, Is Home Again After Adventure In Mexican Wilds

HE'S GOT A "WEE bit of the Irish" about him, has James Donald Kelly of Westland, which as folks used to say means he's got a "wee bit of restlessness." And a "wee bit of restlessness" he's had ever since he discovered there are worlds outside his own home town to explore.

He has just returned from an eight-month, five-day trek through Mexico and Central America where he sat in mud and grass huts while a "Bruja" (witch) hopped up on "Hungos" (sacred mushrooms) helped her people take trips into the land of ecstasy; probed into the Sacred Well at Chichen Itza where the spirits of the sacrificial Virgins hang heavy in the atmosphere; watched en-

tranced while a strong Negro danced in a state of self-hypnosis on a bed of hot, gleaming coals; and travelled approximately 20,000 miles experiencing adventures that have colored and will continue to color his thinking; that have made, if not a better man, a different man, he feels.

It was only a little over two years ago that James Donald Kelly, whose friends call him Don, was a 9 to 5 man and chomping at the bit.

"It wasn't that I didn't like my job," he says in his deep resonant voice. "It's just that I wanted to get out and go somewhere before I finally settle down. I'd been hunting out in Wyoming and Montana and Colorado, and about four years ago I'd followed the Trans Canada highway up into the wilds of British Columbia, and I trekked over the Mojave desert, but this only assuaged the wanderlust a little."

And then he met 28-year-old Art Erickson of Birmingham, whose thirst to see the world had sent him propelling over 100,000 miles with his cameras and his tape recorder, with which he photographed and recorded on tapes the sounds and "feels" of other cultures for his own company, The Viking Films.

"When he invited me to come along on this planned trip, I didn't give him a chance to change his mind. I asked my employer for a leave of absence, but I guess an 8-month leave of absence is an unheard of policy, so I quit."

Two others joined the party, James Romig of Ferndale, and Rob Hart of Florida, who had his nineteenth birthday in the wilds. One day in June the four adventurers left Birmingham, driving a 289 Bronco and a Ford Ranger 250 pickup with a Camper on the back loaded down with cameras, camping equipment and other gear needed for adventure in the wilds.

On a winding road in the state of Oaxaca in Mexico, the adventurers met a couple bus-loads of "hippies" being

accompanied back from where they had come by the Mexican government police.

"We'd seen them," Don laughed, "but we hadn't really associated them with us. However, when we drove into the town of Huautla De Jimenez, we were actually placed under house arrest. It seems that this town of the "sacred mushroom" had been getting a lot of tourist trade lately by those who like to sit still when they take their trips, and the authorities were getting mighty suspicious of foreigners."

"I think the fact we were all clean-shaven helped us a little, but even so we would discover after we had gone to bed at night that there were men in sombrero's pulled low over their eyes, and serapes drawn close around them, standing in doorways across the street. And I expect they were behind us, too."

"However, they did let us film the rituals. They have what they call the "Bruja" or witch. . .in fact, they have one witch who is quite famous, named Sabina, and we actually sat in on some of these ceremonies when they would gather together with the witch in a mud and grass hut. She would go through an almost liturgical chant, chanting away, with the incense burning and people laying around on the floor grubbing these mushrooms, smoking marihuana and things like this, and man, it was weird."

"This famous witch has a little kid she is training. . .I think he is her grandson about eight years old and she is teaching him to be a warlock, or a male witch, so that after she dies he will take over her position."

"Being in this town was the strangest experience which left us with a weird feeling. . .a feeling you can't quite put your finger on. . .it was weird, man, weird!"

"This is the way it was. Here, we talk about various drugs that could possibly cause genetic deficiencies. Well, in that town, those people had the queerest way of looking at you. They were looking at you and

DEEP IN WILDS OF MEXICO, ADVENTURER DON KELLY POSES WITH HIS GEAR
He'll Show Films of Latest Excursion to Wayne Lions Club Members at Seit's Tonight

yet they weren't looking at you. They were kind of looking through you.

"We saw a great many people with physical ailments, a certain amount of mongolism and other defects. The town was located in one of the most remote and beautiful sections we visited, and it seemed incongruous that such a large number of people in the smallish place should be deformed in some way."

The Yucatan made a deep impression on the wanderer.

"You know, you could almost feel the ancients of that place,"

he said. "No one has ever found out where the Mayas came from, how they got there or what happened to them, but their civilization goes way back to before Christ. And then around the 16th century, poof, they were gone! Or at least their power and influence just disappeared."

"There are archaeologists there now who believe the secrets of the Mayas are in the silt at the bottom of the sacred well. This is where they used to throw their young virgins to appease their god of rain who was supposed to live in that well. It was eerie. I guess they used human

sacrifice there for some 2000 years. We couldn't find any virgins that wanted to be a human sacrifice, so we dressed some up and filmed them at the well. Apparently when they threw their sacrifice into the water they also sent along offerings of Mayan art, treasure and handicraft. That's why archeologists are particularly interested in the bottom of that well."

As the four adventurers plunged further into Central America they often went deep into the interior, travelling not only with their own trucks, but by mule, dugout canoes and by light airplane.

"What we really wanted to do was to get into the 'off-beat' type of adventure, the kind of thing the average tourist doesn't see, or do, like putting a pack on your back, or climbing on a mule and go stomping into areas that are away off the track," Kelly said. "Consequently, we wanted to film the most interesting for presentation to the public. . . things we could see, sort of a "bold journey."

"I think the thing that impressed me most and that I have carried home with me is the feeling that I have seen man as a whole, so to speak. A trip like this gives you a

chance to meet people, real people, who are living in their own country, observing their own culture of thousands of years ago, in some cases completely unchanged. . .another human being in his own natural habitat, and you find out that people down deep in their basic nature are pretty much the same.

"There was one thing, though, that we saw that really shook me up. We were visiting the Bushwa Negroes and they let us stay and photograph some of their rituals, and the one that I can absolutely not explain, was a shocker. These people, clothed only in loin cloths, built huge bonfires and after the flames had died down and there was only a bed of hot, gleaming coals, a man would leap in and start dancing. Of course, while the flames were high they were getting all worked up with the beating of their drums and their dancing, and then, all of a sudden this big guy would leap into that bed of hot coals and whether he was self-hypnotized or not, I can't say, but it was pretty shaking to watch."

"There'd be a woman, who would stand by until the time was ripe to pull him out, and then she would haul him out. But before that happened, he would actually pick up those hot coals and rub them over his chest, and his legs, and there wouldn't even be a mark except of charcoal. He'd even laugh! Fantastic."

Don took over 2,500 colored slides and almost all of them came out "just perfect," he said.

"Where do I go from here?" he asked in answer to a question. "I don't know. I really don't know. I'd like to get this stuff edited, and I'd love to show it before groups, particularly young people, because I like the kids, but after that . . . in what direction my life will now take, I don't know. . .!"

A few months should see him taking off for maybe the Congo or somewhere equally far away, because there's still an awful lot of world left for him to explore, and it's obvious there's still a "wee bit of restlessness" left in him.
